Felipe DEL CANTO
Course Work
December, 2019

B.S. MATHEMATICS

2014
Introduction to Calculus
Introduction to Algebra
Introduction to Geometry
Calculus I
Introduction to Statistics
Introduction to Linear Algebra

2015
Calculus II
Linear Algebra
Calculus III
Abstract Algebra I

2016
Introduction to Microeconomics
Abstract Algebra II
Differential Geometry
Mathematical Logic
Real Analysis
Introduction to Macroeconomics
Ordinary Differential Equations
Measure Theory
Complex Analysis

2017
Statistical Inference
Partial Differential Equations
Topology
Functional Analysis
Dynamical Systems

MASTER OF ECONOMICS

2018
Econometrics
Microeconomic Theory
Macroeconomic Theory
Dynamical Programming in discrete time
Econometric Theory (ongoing)
Transport Economics (ongoing)
Applied Microeconometrics (ongoing)

2019
Microeconomic Theory II
Econometric Theory II
Economics of Public Policies
Microeconomic Theory III (Mechanism Design)
